COMPLIANCE REPORT FOR WATER LICENCE N3L4-0570

1987

HAMLET OF AKLAVIK
WATER LICENCE N3L4-0570

Prepared by: Kevin McDonnell
Water Resources Officer
Inuvik District

MUNICIPAL COMPLIANCE REPORT

AKLAVIK Water Licence: N3L4-0570.

BACKGROUND

Completion of improvements to the sewage, honeybag and solid waste disposal facilities at Clearing Lake were done during the summer of 1987.

INSPECTIONS

Inspectors visited Aklavik January 26, 1987 to look at the new Clearing Lake disposal facilities and to take raw water samples. No water quality problems were noted from the results of analysis of the raw water sampled except for 1 count/100ml of fecal coliform. This indicates a need for treatment prior to being used as a drinking water source.

Some minor problems noted from the visit were that the old disposal site required clean-up, and there were some housekeeping problems at the new facility.

VIOLATIONS

Surveillance Network Program Part C Reports Item 1. states:

"The Licensee shall submit quarterly reports for January through March, April through June, July through September, and October through December. These quarterly reports shall contain all of the information generated by Part B of the 'Surveillance Network Program' and shall be submitted with thirty (30) days of the end of the quarter being reported."

No quarterly reports for 1987 were submitted.
