

WATER LICENCE - N7L4 - 0714

ANNUAL REPORT

1. WATER SOURCE LOCATION:

PRESENT: Water Reservoir - Filled annually from
Kudulak Lake.

PREVIOUS SOURCE: (Summer) New Water Lake
(Winter) Tuk Harbour

2. VOLUME OF WATER OBTAINED:

RESIDENTIAL - 470,000 gallons per month (approximately)

COMMERCIAL & INDUSTRIAL - 975,000 gallons per month (approximately)

NOTE: As many of the industries are open only during the operating season, consumption is higher during the summer than the winter averaging out to an estimated monthly average.

3. No major maintenance work has been undertaken. The Water Reservoir, which was filled this past Summer/Fall received final inspection October 25/85, coming into use October 26/85.

The New Water Lake access has been left open as an alternative Water Source.

4. Plans for existing and abandoned disposal sites shall be forth coming as various options are presently being considered.

5. DISPOSAL AREA FOR DUMP-OUT SEWAGE - NEW SEWAGE LAGOON LOCATED AT:
69°23' 55" N; 133°02' 00" W.

6. As the New Sewage Lagoon come into use only this current year, the Lagoon has not been "flushed". It is anticipated that this will be done in Aug. - Sept./86.
