Subject: RE: contact information of NTPC

Hi Mardy,

We just concluded the conference call meeting with the HTC and ACC to discuss the remediation project at the former plant site, unfortunately Michelle Gruben, Resource Manager with the HTC was the only person to call into the meeting.

We provided Michelle with an overview of the project and explained the current schedule. Michelle's two concerns were also addressed during the call:

- Michelle was concerned about the extent of the offsite impacts as her house is located across the road from the former plant site. I explained that the impacts did not migrate very far offsite and that the two offsite areas were cleaned up in 2004 (area in the cemetery located next to the southwest corner of the site) and in 2007 (area of grass and shrubs located next to the northeast corner of the site).
- Michelle was also concerned about the hiring of local contracts. Margaret Allan of Matrix Solutions explained that they have hired local contracting company K&D for the project, who will be providing local heavy equipment, backfill, equipment operators and labourers. K&D's staff will also learn proper soil and water sampling techniques during the project.

Unfortunately since Michelle is just returning from holidays she wasn't able to provide any clarification on the HTC's original comments. I did inform Michelle that the HTC can contact us any time if they have any questions regarding the project.

Thanks,

Josh

Bijaya Adhikari

Subject: Teleconference Meeting Re: Former Power Plant Site Remediation

Good afternoon,

I just wanted to send out the call in info for the teleconference meeting to discuss the remediation project at the former power plant site schedule for August 2 at 1pm.

Myself and Margaret Allan from Matrix Solutions, the environmental consulting company hired to conduct the remediation project, will be calling in. We hope to answer any questions and address any concerns the ACC and HTC have regarding the project.

Please call in to 1-866-368-6248
Participant Code: 9121374

Thanks and have a great weekend!
