

**ENVIRONMENTAL IMPACT SCREENING COMMITTEE**

Submission Number: [11/10-02]

January 31, 2011

IEG Consultants Ltd.
500, 2618 Hopewell Place NE
Calgary, AB T1Y 7J7

ATTENTION: Sam Bird B.Sc., Environmental Scientist

Dear Mr. Bird:

**RE: PROJECT DESCRIPTION, RENEWAL OF TYPE B WATER LICENSE N7L1-1762,
SHELL CANADA LIMITED, CAMP FAREWELL STAGING SITE.**

During a meeting held January 26-28, 2011 the Environmental Impact Screening Committee (EISC) screened the above noted project description determining that it has deficiencies of a nature that warrant a termination of its consideration and the submission of another project description [IFA Section 11.(17)(d)]. A copy of the decision is attached.

In rendering its decision the EISC found that this development is subject to screening essentially due to the operating site, conditions, and procedures being significantly changed from those for which the development had previously been screened. The EISC has concerns about potential risks in the existence of an unmanned industrial facility essentially in a care and maintenance mode. The information provided by Shell is clearly inadequate for the purpose of determining the nature and probability of any negative environmental impacts. A new project description is required that describes the nature and extent of the proposed activities for the Camp Farewell Staging Site during the term of the Water License sought.

Shell is notified that this proceeding is now closed and upon submission of a satisfactory Project Description a new proceeding will commence.

If you have any questions on the above decision and recommended term and condition, please do not hesitate to contact the EISC office.

Sincerely,

Christine Inglangasuk
Environmental Assessment Coordinator

ENVIRONMENTAL IMPACT SCREENING COMMITTEE

NAME OF PROPONENT: Shell Canada Limited

PROJECT DESCRIPTION: PROJECT DESCRIPTION, RENEWAL OF TYPE B WATER LICENSE N7L1-1762, SHELL CANADA LIMITED, CAMP FAREWELL STAGING SITE [11/10-02]

DECISION OF THE SCREENING PANEL (circled):

1. The development will have no such significant negative impact and may proceed without environmental impact assessment and review under the Inuvialuit Final Agreement. [IFA s. 11. (17) (a)]
2. The development if authorized subject to environmental terms and conditions recommended by the screening committee, will have no such significant negative impact and may proceed without environmental assessment and review under the Inuvialuit Final Agreement. [IFA s. 11(17)(b)]
3. The development could have significant negative environmental impact and is subject to assessment and review under the Inuvialuit Final Agreement. [IFA s. 11. (17) (c)]
4. The development proposal has deficiencies of a nature that warrant a termination of its consideration and the submission of another project description. [IFA s. 11. (17) (d)]

Signed on the 28th day of January 2011.

John Ondrack, EISC Chair

Albert Ruben, Canada Member (NT)

Patrick Gruben, Inuvialuit Member
