Subject: FW: N7L3-1619 WTP Modification Notice

Hello,

On behalf of the Hamlet of Paulatuk and the Government of the Northwest Territories, we would like to provide notice to the IWB of upcoming modifications to the community's water treatment plant. These modifications will still follow the licence requirements and guidelines. Improvements to the treatment system will take place by installation of a new factory assembled system planned to be installed during the summer of 2019. No changes or modifications to the raw water intake line will take place.

Please confirm acceptance of this notification, or if additional information is required please contact me either by phone or email indicated below.

Regards,

Arlen Foster P. Eng.
Associate, Civil Team Lead, Northern Canada
