Re: N7L3-1619 2018 Annual Report

The following is a response to the request for additional information contained in your letter of July 3, 2019.

1. Although sampling bottles were requested through Dillon Consulting, bottles were not received prior to freeze-up; therefore, it was not possible to collect any samples. We will try to ensure that samples are collected this year.

There was no run-off observed at Sampling Stations 1619-5 and 1619-6, therefore no samples were taken.

2. There was no correspondence with the inspector.
3. There were no other details on waste disposal requested by the Board.

Yours truly,

John Holland
Senior Administrative Officer
