Good Afternoon Kyle

Thank you for the email. We to at the IWB are experiencing unprecedented challenges as we work through the GNWT Directives of Self Isolation and Social Distancing. Our office is closed to the public and I am the only staff member working from the office with the others working remotely and connected electronically. The IWB understand your challenges with the COVID-19 pandemic.

This email confirms the IWB accepts your extension request for the submission of the N7L1-1834 – Shell Camp Farewell Annual Report until April 30, 2020.

If you have any further questions, please contact me at 867-678-8609, or through this email.

Thank you again

Mardy

Bijaya,

I am writing to you to inquire about a potential extension to our required submission deadline for the IWB Water Licence report for Camp Farewell (Due March 31, 2020). We have all been experiencing unprecedented challenges adapting to the COVID-19 pandemic. I am not sure if your offices are still operating. Most of our workforce is adapting to working remotely and these have created unforeseen challenges on our abilities to complete project work. We are adapting, but some aspects are more challenging than others. I was hoping to get, if possible, a one (1) month extension to our required report submission (April 30, 2020) as we adapt to our new working environments and challenges from the COVID-19 pandemic.

I appreciate your time and consideration of my request, and I look forward to your response. Should you have any questions, please feel free to contact me via email.

Regards,

Kyle Schepanow, M.Sc., P.Geo.
