Subject: Re: N3L8-1838 NTPC WL Application

Hello Bijaya,

The board reviewed the application for Northwest Territories Power Corporation Miscellaneous Water Licence with their comments for the grave site; -Mark it with GPS and take info (for new crosses), treat it and fill it.

-Pipe to drain into another road to control the water in the area.

-Have a public session to get community opinion.

We posted to the public and will get back to you if any other concerns or comments
