**Subject:** N7L1-1834 Shell - Camp Farewell - Term Renewal App Add info req

Good Afternoon David,

The IWB completed an initial review of the Water Licence N7L1-1834 amendment application to extend the term of the licence (Schedule C). As a result of an initial review, additional information is required:

- (1) The information provided in the application, Item 8 indicates waste produced on the barge camp is the responsibility of the barge owner. This description is insufficient. Please indicate how the waste generated on the barge camp will be managed and disposed of by the barge owner;
- (2) As required by Water Licence N7L1-1834 Part D, Item 15 – submit to the Board a copy of each agreement(s) between Licensee and third parties regarding storage, transport or disposal of wastes (e.g. as indicated in the application, Item 8);
- (3) As indicated in the application, Item 9 and Appendix 1 – provide records of the consultations with Hunters and Trappers Committees in Inuvik, Aklavik and Tuktoyaktuk; and
- (4) Provide a decision letter from Environmental Impact Screening Committee (EISC).

Please provide this information as soon as possible for the IWB to proceed with the approval process.

Sincerely,

Bijaya
